Takashimaya Company, Limited

Takashimaya Reports Earnings for the Year Ended February 28, 2017

Tokyo, Japan April 7, 2017—Takashimaya Company, Limited (TSE Security Code 8233) announced consolidated operating revenue of 923,601 million yen for the fiscal year ending February 28, 2017, and profit attributable to owners of parent of 20,870 million yen, or 52.55 yen per diluted share.

Qualitative Information about Consolidated Operating Results

During the consolidated fiscal year under review, the Japanese economy showed signs of improvement in employment, income environment, and other areas. However, it cannot be said that the economy was on a recovering trend, and department stores faced a harsh business climate, which included lackluster personal consumption.

Against this backdrop, the Takashimaya Group made efforts to improve its performance. For example, with a view to maximizing the appeal of its commercial facilities and their surroundings, it advanced the Machi-dukuri Strategy by leveraging the expertise of Toshin Development Co., Ltd., a group company that manages cocreation projects with local communities and the group's real estate, particularly with respect to department stores.

Consequently, the consolidated performance was as follows: Total consolidates operating revenue for Takashimaya Group was 923,601 million yen (down 0.6% compared with the corresponding period of the previous fiscal year). Consolidated operating income was 34,000 million yen (up 3.1% compared with the corresponding period of the previous fiscal year), consolidated ordinary income was 37,215 million yen (down 1.5% compared with the corresponding period of the previous fiscal year), and consolidated profit attributable to owners of parent was 20,870 million yen (down 12.4% compared with the corresponding period of the previous fiscal year).

Operating performance by business segment is discussed below.

Department Stores

The Shinjuku Store collaborated with Toshin Development Co., Ltd. in a refurbishment project designed to capitalize on the changes in the surrounding environment, which includes the development of Japan's largest transport terminal adjacent to the store. The Kyoto Store also carried out refurbishment work with a view to contributing toward an elegant townscape; for example, it opened a new wing devoted to accessories.

Regarding merchandise lineup, in September last year, the company introduced "Season Style Lab" —a curated boutique for women to upgrade their everyday lives with their own unique styles—in the five major stores (Osaka Store, Kyoto Store, Nihombashi Store, Yokohama Store, and Shinjuku Store) and also the Kashiwa Store. In this way, the company achieved shoppable product curation, a key strength of department stores, and an impressive merchandise lineup.

Following on from the opening of specialist watch store Takashimaya Watch Maison in the Nihombashi Store, a second Takashimaya Watch Maison opened in the Osaka Store last November. Boasting Japan's largest selling space devoted to timepieces, the store got off to a strong start by attracting many visitors from across a wide area. The company also endeavored to capture health and beauty needs and provide unique value. It embarked on a new business venture by introducing the beauty and lifestyle brand "dear mayuko" to Yokohama Store and Nihombashi Store ("dear mayuko" is the brand of Dear Mayuko Co., Ltd., a joint-venture with SEIREN Co., Ltd.), and opening "Kouji&Ko," a delicatessen and cafeteria selling fermented products, in Shinjuku Store.

In terms of attracting customers, the company endeavored to attract people into stores by holding events that are unique to the Takashimaya brand. Following on from the "d POINT CLUB" joint-venture with NTT DOCOMO, INC., the company commenced in October a new point service "Ponta" in collaboration with Loyalty Marketing, Inc. As part of its efforts to win new customers, the company has not only collaborated in the provision of point services; it has also incorporated NTT DOCOMO and Loyalty Marketing's knowhow into marketing activities, and this has helped attract more customers, particularly young customers.

The company also engaged in various promotional activities aimed at capturing inbound demand. For example, the company collaborated with NTT DOCOMO, INC. in sending coupons to mobile phones of overseas carriers, and spearheaded a pull marketing strategy in a group-wide effort that involved overseas stores such as the Vietnam and Singapore stores. In this way, it attracted more overseas customers, resulting in a double-digit increase in sales of duty-free goods.

Regarding overseas stores, Takashimaya Singapore Ltd.'s profits and revenues declined on a local currency basis due to factors such as Singapore's economic slowdown and declining tourist numbers. Shanghai Takashimaya Co., Ltd., in January last year, relocated and expanded its Japanese-Goods Store (which showcases and sells high-quality Japanese goods) and bolstered its merchandise line-up. It also held a festival to mark the third anniversary of the store's opening. These sales policies proved successful and the store reported increased in revenues on a local currency basis. In July last year, the group's combined efforts culminated in the opening of Takashimaya Ho Chi Minh City. The store has been well patronized by local people, many of whom are attracted by the cosmetic range—the largest of its kind in Vietnam—and the food floor, which recreates the feel of a Japanese "depachika."

Consequently, operating revenue in the Department Stores segment were 797,253 million yen (down 1.8% compared with the corresponding period of the previous year), and operating income was 12,182 million yen (down 18.7% compared with the corresponding period of the previous fiscal year).

Real Estate

In the Real Estate segment, Toshin Development Co., Ltd., along with the company, played a leading role in pursuing the group-wide the Machi-dukuri initiative. In the Futako-Tamagawa area, Toshin Development used digital signage to better reach out to visitors to the area, and worked with commercial facilities in the surrounding area to provide free parking spaces. In this way, Toshin Development worked to improve customer traffic in the area as a whole, and thereby attract more customers to stores. In Shinjuku Station's Takashimaya Times Square, Toshin Development rearranged the merchandise and store composition, attracting the interior retailer Nitori as a tenant, and it opened the refurbished South Hall. In September last year, Toshin Development shifted to a new operational management scheme involving the centralization of real-estate management, the aim of which is to achieve efficient store management and an attractive department store building.

Overseas, Toshin Development worked with a local firm in Vietnam to open the Saigon Centre. Consisting primarily of department stores, the Saigon Centre is Ho Chi Minh City's first ever fully-fledged one-stop shopping complex. Takashimaya Ho Chi Minh City joined forces with specialist stores to pursue the Machi-dukuri strategy. Furthermore, Toshin Development Singapore Pte. Ltd., which operates the shopping center Takashimaya Singapore Ltd, achieved an increase in revenue and profits on a local currency basis thanks to increased rent revenue from tenants. However, both revenue and profits decreased on a yen basis owing to the impact of the appreciating yen on the exchange rate.

Consequently, operating revenue were 47,923 million yen (up 13.1% compared with the corresponding period of the previous fiscal year) and operating income was 11,029 million yen (up 7.1% compared with the corresponding period of the previous fiscal year).

Finance

In the Finance segment, Takashimaya Credit Co., Ltd. worked collaboratively with department stores to acquire new members and promote use of the card, and it endeavored to improve commission revenue by increasing the number of members and the amount of card transactions. These efforts resulted in steady growth, and the segment reported an increase in revenue and profits Consequently, operating revenue were 13,414 million yen (up 4.3% compared with the corresponding period of the previous fiscal year) and operating income was 4,495 million yen (up 2.7% compared with the corresponding period of the previous fiscal year).

Contract & Design

In the Contract & Design segment, Takashimaya Space Create Co., Ltd. benefited from favorable conditions in the construction market, such as the growing demand in the run-up to the 2020 Tokyo Olympic and Paralympic Games and the increasing numbers of overseas visitors. It received strong orders for hotels and similar accommodation facilities, and it has made smooth progress in a major construction project around Nagoya Station. As a result, it reported an increase in revenue and profits.

Consequently, operating revenue were 30,874 million yen (up 15.6% compared with the corresponding period of the previous fiscal year) and operating income was 2,342 million yen (up 23.4% compared with the corresponding period of the previous fiscal year).

Other

The Cross Media Division made efforts to optimize the number of catalogue copies it prints, and thereby maximize its profit.

Consequently, operating revenue in the ross Media Division and other segments was 34,135 million yen (down 5.1% compared with the corresponding period of the previous fiscal year) and operating income was 2,333 million yen (up 55.9% compared with the corresponding period of the previous fiscal year).
